

Main Lectures

Our invited speakers, distinguished scientists from NTUA, NKUA, and NCSR Demokritos, will share their journeys and experiences in Science and Academia.

Round Table

Open discussion on empowering young women in STEM, addressing challenges, opportunities, and ways to build a more inclusive scientific community for all.

Poster Session

Postgraduate and PhD students will have a unique opportunity to showcase their current research interests and activities through a poster presentation.

Short Film

We will watch a film about the life and legacy of Maryam Mirzakhani, a pioneering mathematician and the first woman to be awarded the Fields Medal.

WOMEN IN SCIENCE
