

PROJECT: Cultural Heritage Digital Documentation - CHerIDDOC

SCIENTIFIC DIRECTOR: Maria Pateraki & Andreas Georgopoulos

DURATION (MONTHS): 36

DEPARTMENT: Department of Topography

FINANCIER: IKI

DESCRIPTION: The project aims to modernize heritage education by integrating digital documentation technologies into existing curricula. Objectives include developing a digital heritage curriculum, enhancing digital skills, promoting international collaboration, bridging academia and industry, ensuring inclusive learning, and advancing research. It seeks to equip students and professionals with cutting-edge expertise, fostering innovation, employability, and sustainable cultural heritage preservation
